

Laser Level GRL 500 HCK

TECHNICAL DATA

Specifications

| Attributes | |
|-----------------------|------------------------------------|
| Accuracy | $\pm 1/16''$ @ 100-ft. |
| Battery Voltage | 7.4 |
| Laser Diode | Class II 635 nm, < 1mW |
| Leveling Type | Electronic Self-Leveling, Up to 6° |
| Material | Plastic Composite |
| Mount Threading | 5/8-11 |
| Operating Temperature | 14° F / -10° C ~1 22° F / 50° C |
| Range | 1,650-ft |

| Attributes | |
|------------|--|
| Weight | 25.0lb |
| Includes | Full Kit of Accessories Including Laser Receiver / Remote Control and Bracket, Receiver Pouch, Charger, Tripod and Grade Rod |

Benefits

- Fully automatic - dial-in grade with center line mode for automatic searching and positioning of the laser beam on receiver
- Li-ion-powered - integrated rechargeable batteries in both unit and receiver for extended operating time
- Theft deterrence - tool locks when receiver is undocked from rotary laser; alarm sounds if rotary is moved, unit rendered inoperable without receiver
- Remote control and receiver in one - all information about rotary laser status, settings and measurements is easily accessible
